EXPERIENCE

Frontend Developer

HeadQuarters 05/2025 - 08/2025 Remote
https://coa-scraper-production.up.railway.app/

- **Built** an AI-powered web application for automated extraction of cannabis Certificate of Analysis (COA) data using **Next.js, Node.js, React, and TypeScript**, eliminating manual data entry and accelerating data processing.
- **Engineered** a **multi-strategy extraction engine** integrating **Mistral AI OCR** and lab-specific algorithms (2 River Labs, SC Labs, Steep Hill), achieving **95% extraction accuracy** across diverse document formats.
- **Deployed** the full-stack architecture on **Railway** with **PostgreSQL** and **Tailwind CSS 4**, delivering a responsive, cloud-ready, and production-grade application with modern UI components and CSV export features.

Frontend Developer Intern

ltransition 01/2025 - 04/2025 Remote https://invoice-app.lat/

- **Created an invoice management system** with React, TypeScript, and Tailwind, implementing CRUD, dynamic filtering, and dark/light mode to improve UX.
- **Implemented scalable state management** using Zustand, reducing complexity and improving performance and maintainability.
- **Enhanced the application's security and reliability** by integrating scalable secure authentication design to scale over 10,000+ users, and achieved 85%+ code coverage with a comprehensive Vitest testing suite.
- **Delivered production-ready application with custom domain deployment**, demonstrating end-to-end development skills from design to deployment.

Frontend Developer

No Country 10/2024 - 01/2025 Remote
https://github.com/Rubenhdz20/Pet-Adoption-Website/tree/main

- **Led frontend development** for a 6-person team, designing a responsive React/TypeScript interface with a modular layout system and initial user authentication flow.
- **Defined ESLint rules and architecture standards**, improving code consistency and reducing bugs across a 6-person dev team.
- **Built secure user login functionality** using modern authentication patterns, laying the groundwork for a full user management system.
- **Collaborated on API design and integration strategies**, gaining experience in backend-frontend communication protocols and teamwork.

Frontend Developer

Architecture Website 06/2024 - 10/2024 Remote
https://marianaarquitecta.com/

- **Boosted client inquiries by 10%** through targeted UX improvements and optimized user journey design.
- **Designed and developed reusable React components** from scratch, informed by UX research and detailed Figma prototypes.
- **Achieved 90+ Lighthouse scores across all metrics** through image compression and mobile-first responsive design, improving load times by 40%.
- **Produced pixel-perfect single-page portfolio** showcasing architectural projects with smooth animations and intuitive navigation.

TECHNICAL SKILLS

Frontend

React	Typescript	JavaScript	Next.js
Tailwind	Zustand	React Router	
HTML5	CSS	Jest	Figma
		Redux	
Vitest	Clerk	SASS	
React Testing Library		RESTful API	

Backend

Node.js	MySQL	Postman	
PostgreSQL	AWS	NPM	MongoDB

SQL

Methodologies & Tools

Agile	Git	Webpack	ES6+	GitHub
-------	-----	---------	------	--------

Test-Driven Development

Responsive Design	Unit Testing
-------------------	--------------

EDUCATION

 **Software Development Program**
Platzi
2021 - 2025 Remote

- Completed 30+ courses in React, TypeScript, Node.js, System Design, and Agile practices.

 **Bachelor's in Business Administration**
Benemérita Universidad Autónoma de Puebla
2017 - 2022 Puebla, Mexico
