SUMMARY

I'm a Frontend Developer with 2+ years of experience building responsive, user-centered web applications using React, TypeScript, and modern JavaScript frameworks. I bring a strong foundation in business and design thinking, enabling me to build solutions that are both technically robust and strategically aligned with user needs. My experience spans the full development lifecycle – from component architecture and API integration to testing and performance optimization – always with a focus on clarity, usability, and maintainability.

EXPERIENCE

Invoice App

Personal Project

03/2025 - 06/2025 Remote

https://invoiceappexpenses.netlify.app/

- Built a responsive invoice management system with full CRUD operations, dynamic filtering, and a dark/light theme using React, TypeScript, and Tailwind, significantly enhancing usability and productivity.
- Implemented global state management using Zustand, streamlining data flow and reducing component complexity.
- Integrated secure authentication with JWT and setting up comprehensive testing with Jest to ensure robust code quality.

Pet Adoption Website

Team Project

10/2024 - 12/2024 Remote

https://github.com/Rubenhdz20/Pet-Adoption-Website/tree/main

- Led frontend development in React and TypeScript, creating a responsive UI that improved user navigation and engagement.
- Defined clear coding standards and component architecture, increasing development efficiency and maintainability for the entire frontend team.
- Collaborated closely with backend developers, contributing to data modeling and API design, demonstrating effective cross-functional teamwork.

Architecture Website

Client Project

07/2024 - 09/2024 Remote

https://marianaarquitectura.com/

- Delivered a fully responsive, single-page architecture portfolio that boosted client inquiries through targeted user experience improvements.
- Designed high-quality, reusable React components from scratch, informed by initial UX research and detailed Figma prototypes.
- Improved site performance and load times by optimizing assets and applying mobile-first responsive design principles.

EDUCATION

Software Development Program

Platzi

2022 - 2025 Remote

https://platzi.com/p/Rubenhdz22/

Bachelor's in Business Administration

Benemerita Universidad Autonoma de Puebla

2017 - 2022 Puebla, Mexico

SKILLS

Frontend Skills

HTML	CSS	JavaScript	Tailwind
React JS	Jest	SASS	Restful API
TypeScript	Zustand	React Router	
Git	Figma	React Testing Library	
OAuth integration	Accessibility		

Backend Fundamentals

Node JS	SQL	Express JS	Postman
---------	-----	------------	---------
